PyGameMaker — Tutorial 11: 2.5D First Steps — Answer Key

> For teachers only do not hand out to students. The numbering below matches this tutorial's Worksheet.

Worksheet Answer Key

Part A: 1-C, 2-B, 3-D, 4-A.

Part B: 1. Set Facing Angle (a positive value turns left). 2. Set Direction & Speed with direction facing_angle. 3. Render Distance (make it smaller). 4. Wall, Floor and Ceiling Colors (darker colours). 5. Tick Solid on the block's object.

Part C:

1. Every object needs a sprite in this engine, even if it is never drawn.
2. That obj_wall is Solid, and that the player has a **Collision with obj_wall** event (it may be empty).
3. 180 is left. Walking backwards uses **Down Arrow (held)** with direction facing_angle+180.

Parts D and E: completion and reflection.
