PyGameMaker — Tutorial 13: 2.5D Goals, Gems and Monsters — Worksheet

Name: _____ Date: _____

Do this worksheet after you have played your finished gem maze.

Part A: Words

Match each word with what it means. Write the letter next to the number.

1. Billboard ____
2. Occlusion ____
3. Game Start ____
4. Patrol ____

- **A.** Moving back and forth along a fixed path
- **B.** A picture that always faces you in the 3D view
- **C.** An event that runs once when the whole game begins
- **D.** Being hidden behind something

Part B: Which object and event?

Write the object and the event for each rule.

1. Add 10 to the score when a gem disappears: _____
2. Turn the monster around at a wall: _____
3. Take a life when the monster is touched: _____
4. Check whether any gems are left: _____
5. Set the score and lives once, at the start of the game: _____

Part C: Think about it

1. A gem is behind a wall. Do you see it? Say why.

2. You touch the monster and stand still on it. How many lives do you lose, and why?

3. You set the lives to 3 in the player's **Create** event. What happens after your first death?

Part D: Try it

- [ ] Gems float in front of me and give 10 points
- [ ] The monster patrols and turns at walls
- [ ] Touching the monster costs one life that stays lost
- [ ] The exit warns me when gems are left
- [ ] The exit says "You win!" when I have collected every gem

Part E: Look back

1. What I am proudest of: _____
2. A bug I found and fixed: _____
3. What I would add next: _____
