PyGameMaker — Tutorial 14: 2.5D HUD and Minimap — Worksheet

Name: _____ Date: _____

Do this worksheet after you have added the HUD to your game.

Part A: Words

Match each word with what it means. Write the letter next to the number.

1. HUD ____
2. Draw event ____
3. Minimap ____
4. Viewport ____

- **A.** The part of the window where the 3D view is drawn
- **B.** A small top-down map of the walls
- **C.** Text and pictures on the screen that inform the player
- **D.** An event that draws things on top of the view every frame

Part B: Which action?

Write the action for each job.

1. Show the score at the top left: _____
2. Make text visible on a dark scene: _____
3. Show a map of the walls: _____
4. Shrink the 3D view to make room for a bar: _____
5. Show a health bar, score and lives in one panel: _____

Part C: Think about it

1. The room is 480 pixels tall and you want a 60-pixel status bar. What Viewport Height do you set, and what Height for the bar?

2. The minimap is north-up. What moves on it when you turn, and what does not?

3. Your friend's score text does not show. Give two possible causes.

Part D: Try it

- [ ] Score and lives are drawn on top of the 3D view
- [ ] The minimap shows the walls and an arrow that turns
- [ ] The 3D view is shrunk and a status bar is at the bottom
- [ ] The health bar shows a number
- [ ] I chose colours that are readable

Part E: Look back

1. What I am proudest of: _____
2. A bug I found and fixed: _____
3. What I would add next: _____
